

## Sub Plans for Tuesday March 5

It is a Day 1

Homeroom 7:30 -7:33

Mentor Meeting: 7:38 – 8:00. I am not sure who will book my students.

Block 1: 8:05 – 8:52. A level sophomore chemistry

Block 2: 8:57 – 9:35. A level sophomore chemistry

Bulldog Block: 9:40 – 10:57, I don't believe you have anything you need to do here. Most sophomore teachers and students will be at the MCAS dry run.

First Lunch: 10:57 – 11:17

Block 3: 11:22 – 12:37 Directed Study

Block 4: 12:42 – 1:57 Prep Period

The chemistry classes are all shortened, and students are going to the MCAS dry run later in the day. First, tell the students that, due to changes in plans, the quiz will be on Thursday.

Then, I attached an 8-page packet of practice problems.

If students complete that 8 page packet, they can do some unfinished work in their folders. (I know there is plenty of it!)

Please have students “turn in” the packet into their folders!

During directed study, please send only 5 randomly selected students to the library. If anybody asks to go and then doesn't get to go, write down their names for me so I can let them go next time.

Thank you so much!

- Daniel Kuncik
